### The Object of Rotary

#### THE FOUR WAY TEST: OF THE THINGS WE THINK, SAY, AND DO

1. *Is it the TRUTH?*
2. *Is it FAIR to all Concerned?*
3. *Will it build GOOD WILL and better Friendships?*
4. *Will it be BENEFICIAL to all Concerned?*

### Cheryl Mollan, Manager of Facilities & Planning Paso Robles Joint Unified School District

Paso Robles school supervisor Chris Williams hosted lunch for club members at the Culinary Art Academy last week. It was a good opportunity for school district facilities & planning manager Cheryl

Mollan (left) to provide members with an overview and update on the various facility construction activities enabled by Measure M. Measure M is the \$95 M general obligation bond that was passed in the 2016 election. The first phase will include upgrades to the current Arts Academy at Bauer Speck (creating two separate sites: Marie Bauer Early Educational Center and the Glen Speck Arts Academy) and the

construction of the Paso Robles Aquatic Complex at Paso Robles High School. Cheryl was assisted by John Smith and Raphael Ferreira, architects for design firm SIM-PBK that is involved in all current projects. Chris Williams explained that SIM-PBK is providing architectural services for all projects for a flat fee of \$5.1 M, saving about \$2 M over contracting the projects separately. The first bond was recently sold with a 3.5% interest rate, slightly better than the 3.78% rate projected prior to the offering. The bond carries a AA rating.

Cheryl noted that the architectural design activities were preceded by 12 user groups workshops to ensure the projects meet the expectations and needs of the diverse set of users. This is particularly important at the Marie Bauer Early Educational Center that will serve special needs children in a safe, secure environment. The two wings surround a protected center court area and the layout will allow teachers the flexibility to teach each child differently. The first phase of this project is budgeted for slightly more than \$11 M and is scheduled for completion in June 2020.

Cheryl also discussed several other Measure M projects that are “changing the landscape of our community”. The most visible will be the new aquatic center capable of hosting local, state, national and international swim meets. The pool is made of stainless steel that has longer life and lower maintenance than plaster pools.

## Little Known Facts About American Presidents

- Abraham Lincoln was a renown wrestler who even made it to the Wrestling Hall of Fame.
- John Tyler (1790-1862) had more children (15) than any other president. Two grandsons are still alive today.
- While president, Franklin Pierce was arrested for running over a woman with his horse. Charges were later dropped due to a lack of evidence.
- In his youth, Andrew Johnson was an apprentice tailor. Even as president, he always made his own suits.
- James Buchanan often bought slaves in Washington DC and secretly freed them in Pennsylvania.
- Rutherford B. Hayes was the only president shot in the Civil War - not once, but four times. Four horses were shot from beneath him.
- The "S" in Harry S. Truman doesn't stand for anything. His parents couldn't decide on a middle name so they settled on S in honor of his grandfathers, Solomon Young and Andrew Shipp Truman.
